INCONTINENCE: THE ENGINEERING CHALLENGE XII

13–14 November 2019, Institution of Mechanical Engineers,
London

INCONTINENCE: THE ENGINEERING CHALLENGE XII – EUROPE'S ONLY REGULAR INTERNATIONAL, MULTI-DISCIPLINARY CONFERENCE ON INCONTINENCE TECHNOLOGY - IS SCHEDULED FOR 13–14 NOVEMBER 2019 AT ONE BIRDCAGE WALK IN LONDON, AND WE INVITE YOU TO "SAVE THE DATE" IN YOUR DIARY.

The organising committee are finalising an exciting conference programme including new innovations, materials and approaches, full details to come soon.

Meanwhile, **the programmes for the last two events in this two-yearly series can be viewed online at www.imeche.org/incontinence.**

Viewing these programmes online should provide an accurate flavour of what to expect in 2019. Building on the success of previous years, key features will include:

- **Patient Panel:** an interactive session with people who manage their incontinence using continence products, asking them to share their experiences and explain how they'd like products to be improved.
- **Thought-provoking talks:** speakers from outside the incontinence world challenging us to think differently about what we do.
- **International Speakers:** regular conference presentations from across academia, healthcare, industry and elsewhere, present the latest work around incontinence.
- **Interactive Events:** A research poster competition and a series of discussion groups, together with plenty of time to network and meet the wider community. As ever, the whole event will be very multi-disciplinary and international.

This website will soon carry a call for papers, details of how to register and – in due course – the conference programme. Please make a note to check it for updates from time to time, and do consider joining us for what is always an enjoyable, stimulating and informative event.

Perhaps you have some work of your own you'd like to present? Please contact the Organising Committee through Prof. Alan Cottenden (a.cottenden@ucl.ac.uk) or Dr Pete Culmer (p.r.culmer@leeds.ac.uk).

If you'd like to receive emailed updates on the conference as the plans come together, please email us at eventenquiries@imeche.org.

ANOTHER EVENT TO LOOK FOR:

THE INSTITUTION OF MECHANICAL ENGINEERS' ANNUAL DINNER 2018

22 November 2018, Bristol

Join the Institution in celebration of engineering excellence – and in particular 50 years of supersonic travel – at the newly-opened museum Aerospace Bristol, housing the final Concorde ever built, which will provide the spectacular backdrop for a memorable night of networking and fine dining.
