Rail Safety Summit 2019

3rd October

Addleshaw Goddard
London

We're used to hearing phrases like
'Safety First'. They're a reminder that
safety is never off the agenda.

Britain's railways have maintained an
enviable safety record in recent years,
but recent tragedies and near misses
demonstrate that there is room for
improvement.

Register for the Rail Safety Summit to
hear HSEQ leaders from Network Rail,
RAIB and RSSB discuss the issues that
matter.

The Rail Safety Summit is a CPD Certified Event
